

Sink

Pot Wash

The Simcraft Pot Wash Sink is fabricated from 1.2mm 304 grade stainless steel. The unit features two large 138 litre centrally-positioned bowls with increased capacity for high-traffic washing up areas such as those found in restaurants and cafes. The sink has graded drainage sections on either side and a wet edge running along the entire circumference of the sink, ensuring water containment, and the sink is produced with an enlarged rear hob for mounting tapware. Comes with a 304 grade 90mm European basket plug & waste (50mm connection) for each bowl as standard and can be supplied with optional overflow kit.

Design Features

- Extra large twin bowls for commercial kitchens
- Radius internal corners for easy cleaning
- 1.2mm 304 grade S.S. No. 4 satin finish
- Wet edge detail with sloped drainers
- Supplied with inset clips & 90mm European basket plug & waste (50mm connection)
- Extended rear hob to accommodate tapware
- Top or undermounted configuration
- Available in a standard size
- Custom lengths made to order
- Overflow waste kit available
